

Pneumatic binding machine for double loop spiral type ZS2-710 with safety barrier

The machine is designed for double loop wire spiral binding of both calendars with hangers and paper pads. Binding length is 700mm, spiral size from 3/16" to 1 1/4". Spiral must be first inserted into the paper pad/calendar, then place under the machine. Calendar hangers must be inserted manually, finally the machine can be activated.

The machine is turned on manually by pressing the safety barred handle. The machine will not start, if there is any object under the safety barrier handle e.g operator's hand.

Machine ensures quiet operation and high durability.

You can see how the machine operates on www.estyma.eu

TECHNICAL DATA	
Binding length	up to 700 mm
Spiral diameter	from 3/16" to 1 1/4"
Capacity	up to 500 pcs/h (depending on calendar/paper pad size and operator's proficiency)
Operating personnel	1 person
Air pressure, supply	6,3 - 10 Bar
Working pressure	6,3 Bar - must be set on the pressure regulator
Air consumption	up to 0,5m ³ /h
Dimensions width / height / length	42 cm / 44 cm / 81 cm
Weight	58 kg
